

BROKER PRICE OPINION

A BPO, plainly put.

What the number means, what goes into it, and when another professional may be needed.

THE SHORT ANSWER

A Broker Price Opinion gives an estimated sale price for a specific property as of a specific date. It is not an appraisal.

01 WHAT J4 REVIEWS

- Location, acreage, access, and current use
- Water, utilities, fencing, roads, and improvements
- Condition, known restrictions, and available records
- Recent relevant sales and current competition

02 WHAT YOU RECEIVE

- An estimated sale price or supported price range
- The property facts and market evidence behind it
- Assumptions, data gaps, and factors that move the number
- A clear recommendation for the next conversation

03 WHAT IT DOES NOT REPLACE

- An appraisal by a licensed appraiser
- A survey, title review, or boundary determination
- An inspection or environmental assessment
- Legal, tax, lending, or estate advice

BEFORE WE START

- Property address, county, and acreage
- Why the opinion is needed and who will use it
- Required date and requested effective date
- Current photos and whether an on-site visit is possible
- Survey, title, ag, well, septic, and improvement records you have

If a lender, court, estate, tax professional, or another third party requested the report, confirm what they will accept before ordering.

TEXAS MAKES THE LINE CLEAR

This represents an estimated sale price for this property. It is not the same as the opinion of value in an appraisal developed by a licensed appraiser under the Uniform Standards of Professional Appraisal Practice.

THE NEXT MOVE

Tell us why you need the number. We will confirm whether a BPO fits the job.
