

Pre-Market Property Improvement Checklist

Focus first on use, access, safety, and active failures. Document the rest before spending money.

THE SHORT ANSWER

Not every project earns its cost back. Start with the work that protects the property and the buyer's first visit.

01 WALK + PHOTOGRAPH

- ☐ Perimeter fence, cross-fence, gates, braces, and cattle guards
- ☐ Roads, culverts, low crossings, drainage, and parking
- ☐ Wells, water lines, septic, utilities, tanks, and troughs
- ☐ Homes, barns, shops, sheds, pens, and other structures

02 SORT THE WORK

- ☐ Fix now: safety, access, active leaks, and working systems
- ☐ Get a quote: larger repairs that may affect price or financing
- ☐ Leave and disclose: cosmetic or buyer-specific projects
- ☐ Remove trash, hazards, abandoned equipment, and loose debris

03 KEEP A RECORD

- ☐ Before-and-after photos, invoices, permits, and warranties
- ☐ Approximate year, size, construction, utilities, and condition
- ☐ Items that stay, items that go, and anything leased
- ☐ Known work left for the buyer and estimates already received

OPTIONAL J4 INTRODUCTIONS

If fencing or water work needs a closer look, J4LP can introduce J4 Fencing and Services or J4 Water Works. Any work is evaluated, quoted, contracted, and paid separately. There is no obligation to use either company.

YOUR NEXT FOUR MOVES

1

Walk and photograph the property

2

Separate urgent work from optional work

3

Gather receipts and quotes

4

Review the list with J4LP before spending

WHEN YOU ARE READY

Send what you have. We will help organize the next conversation.
